

IN THE CLAIMS:

Please amend the claims as follows:

1. (Currently amended) A fence assembly for a tablesaw having a work surface, a cutting tool disposed on the work surface, said fence assembly comprising:

a fence beam having first and second opposite sides for being slideably disposed on [[said]] the work surface[and having opposite sides];

a first plurality of studs projecting outwardly from [at least one stud disposed on at least one of] said [opposite] sides each to a head spaced from said first side [and projecting outwardly therefrom]; and

an independent [[a]] fence face having a first plurality of keyhole shaped slot [and at least one slot disposed on the at least one of said opposite sides of said fence] for removably receiving and retaining said heads of said engaging at least one stud [for securing] to removably attach said fence face [[fence]] to said fence.

2. (Currently amended) An assembly as set forth in claim 1 including [[another]] a second independent fence face disposed on the other [one of said opposite sides] side of said fence and having a second plurality of keyhole shaped slots, a second plurality of studs extending from the other side of said fence beam each to a head spaced from said second side.

3. (Currently amended) An assembly as set forth in claim 1 wherein said fence face extends above said sides of said fence beam [including a plurality of studs disposed on each of said opposite sides and projecting outwardly therefrom].
